

In early May CDH acquires a fifth boat which we named Dive Freedom.
 The Dive freedom is a 48-foot custom-built dive vessel, powered by brand new Yanmar twin 440hp engines.
 This new technology makes these the most environmentally friendly engines available.
 Originally a yacht is transformed into a diveboat with capacity of at least 26 to 28 divers.
 We would like to announce that this dive vessel will be ready for Operations starting on November 01, 2024.
 With this new addition we will have more dive capacity available 365 days a year!

THIS is the reason to celebrate the Pre- Arrival of this new vessel with an AMAZING special;
